

# Home Group Questions

Week of June 2nd

**HEBREWS 11:23**

1. Why doesn't God grant instant deliverance from our problems? Why do some problems (Israel being held captive in Egypt) linger on for years?

2. How can we know if God is telling us to do something (like Moses' parent who disobeyed the government), or whether it is coming from some other source?

3. If you were giving advice to new parents, what would you tell them concerning how to pass faith on from one generation to the next?

4. So far in chapter 11 we have seen men and women of faith working in concert with God concerning His will for their lives. Is preparation, planning, and hard work in opposition to faith? How can we know whether the results are from God or from our planning and effort?
